Polina Lisitsa

Front-end developer | Next.js | React | JavaScript | Redux | HTML
CSS/SCSS
Medellín, Antioquia, Colombia

Summary

I am a Frontend Developer specializing in building responsive and interactive web applications using Next.js and React.js. My technical expertise includes JavaScript ES6, HTML5, CSS3, SASS, Tailwind, Redux Toolkit, App Router, React Router, MongoDB, SQLite, Jest, and Git. I have experience in API integration, testing, and optimizing applications to ensure high performance and stability. Since May 2022, I have been working as a Next.js and React.js developer. You can view my latest projects on my personal portfolio website. I am committed to continuous learning and pay close attention to detail, thriving in collaborative team environments. I am proficient in English (B2+), Russian (native), Spanish, and Chinese. I am open to collaboration opportunities. Feel free to connect!

Experience

Upwork

Frontend Developer
May 2022 - Present (2 years 10 months)

Joiny

Frontend Developer
September 2024 - January 2025 (5 months)
Tbilisi, Georgia

1. Development of Components, Pages, and Form Validation

Developed reusable UI components and new application pages using Next.js (App Router) and TypeScript. Implemented dynamic forms with real-time validation, improving user experience and reducing input errors.

2. File Upload with Preview Generation, API Integration, and Database Interaction

Implemented a file upload system with real-time previews, supporting multiple file types. Optimized the process with progress indicators and error handling, enhancing usability and user engagement. Actively collaborated with backend

developers to integrate APIs, ensuring smooth data exchange and efficient file processing. Worked with MongoDB for data storage and Postman for API testing and debugging, ensuring stable and efficient backend communication.

3. State Management with Redux and Cache Optimization

Developed Redux logic for efficient state management and integrated Redux Persist to maintain state across sessions. Optimized caching strategies to improve performance and reduce backend load.

4. Frontend Development and UX Enhancements

Built responsive interfaces using Next.js UI Components and Tailwind CSS, applying best development practices. Worked with designers to refine UI/UX, incorporating animations and smooth transitions for better user interaction.

5. Cross-Functional Collaboration in a Scrum Team

Collaborated with an international Scrum team, contributing to UX improvements and technical decisions. Participated in Agile ceremonies, ensuring alignment with business goals and continuous product enhancements.

Education

Siberian Federal University

Bachelor's degree, Physics · (September 2009 - July 2013)
